

TRANSFORMATION LAYER		INPUTS (FROM)	TRANSFORMATION QUESTION	PRIMARY TRANSFORMATION OUTPUT	OUTCOME
LAYER 5	 GOVERNANCE OVERSIGHT LAYER Strategy, oversight, and assurance at the highest organizational level.	- OGSAM Results - GMM Maturity Scores - GGAF Gap Analysis - Executive Priorities - Risk & Compliance Requirements	What leadership capabilities, structures, and practices must improve to strengthen governance oversight and strategic alignment?	 OVERSIGHT IMPROVEMENT PLAN Strengthened oversight capabilities and executive governance practices.	 Stronger strategic oversight and governance leadership.
LAYER 4	 ACCOUNTABILITY LAYER Ownership, authority, and accountability for decisions and outcomes.	- Accountability Gaps - RACI Assessment - Ownership Analysis - Escalation Gaps - SoD Assessment	What accountability structures, ownership models, and decision rights must change or be strengthened?	 ACCOUNTABILITY ROADMAP Clear ownership, decision rights, and accountability mechanisms.	 Accountability for outcomes, decisions, and performance.
LAYER 3	 CONTROL LAYER Policies, guardrails, and controls that translate governance expectations into enforceable mechanisms.	- Control Gaps - Policy Assessment - Control Effectiveness - Risk Assessment - Compliance Needs	Which controls, policies, and guardrails require implementation, redesign, or enhancement?	 CONTROL ENHANCEMENT PLAN Effective, efficient, and enforceable governance controls.	 Stronger control environment and risk mitigation.
LAYER 2	 RUNTIME GOVERNANCE LAYER Monitoring, intervention, and governance during real-time system operation.	- Runtime Gaps - Monitoring Assessment - Intervention Capability - Escalation Readiness - Incident History	How will governance operate, monitor, and intervene effectively after systems are deployed?	 RUNTIME GOVERNANCE ROADMAP Operational governance capabilities that remain active at runtime.	 Governance that operates in real time and adapts to change.
LAYER 1	 EVIDENCE LAYER Logging, audit trails, and evidence to demonstrate and defend governance outcomes.	- Evidence Gaps - Logging & Audit Gaps - Traceability Analysis - Reporting Gaps - Retention Needs	How will governance activities be measured, verified, and defended through reliable evidence?	 EVIDENCE IMPROVEMENT PLAN Complete, accurate, and defensible governance evidence.	 Defensible evidence and audit readiness.

TRANSFORMATION PRIORITY MODEL			GOVERNANCE TRANSFORMATION ROADMAP MATRIX (EXAMPLE)							
	PRIORITY 1 – CRITICAL GAPS Immediate governance risk that must be addressed without delay.	EXAMPLES - No ownership model - No runtime governance - No evidence generation - Missing escalation paths TARGET TIMELINE 0 – 90 DAYS	LAYER	GAP / OPPORTUNITY	SEVERITY	OWNER	TRANSFORMATION ACTION	TIMELINE	TARGET	MATURITY
	PRIORITY 2 – SIGNIFICANT GAPS Important governance weaknesses that increase risk or reduce effectiveness.	EXAMPLES - Weak controls - Inconsistent reporting - Limited monitoring - Incomplete processes TARGET TIMELINE 90 – 180 DAYS	5	Weak governance metrics		CFO	Implement governance metrics framework and dashboard	120 Days	4.5	
	PRIORITY 3 – OPTIMIZATION OPPORTUNITIES Maturity improvements that drive efficiency, automation, and advanced governance capabilities.	EXAMPLES - Governance automation - Advanced metrics - Predictive governance - Continuous optimization TARGET TIMELINE 180 – 365 DAYS	4	Ownership ambiguity		Governance Lead	Define ownership model, RACI & decision rights	120 Days	4.5	
			3	Control coverage gaps		Risk Team	Implement missing controls and strengthen testing	180 Days	4.5	
			2	No runtime monitoring		CIO	Deploy monitoring, alerts, and intervention capability	90 Days	4.5	
			1	Incomplete audit trails		Audit Lead	Expand logging, traceability, and evidence retention	180 Days	4.5	

30 / 60 / 90 DAY TRANSFORMATION MODEL			GOVERNANCE TRANSFORMATION HEAT MAP (EXAMPLE)						TRANSFORMATION SUCCESS METRICS				
0 – 30 DAYS ASSESS  - Complete OGSAM - Complete Maturity Assessment - Complete Gap Analysis - Establish Baseline OUTCOME Current State Visibility	31 – 60 DAYS DESIGN  - Assign Ownership - Prioritize Gaps - Design Remediation Activities - Establish Metrics OUTCOME Transformation Plan	61 – 90 DAYS EXECUTE  - Implement Priority Initiatives - Establish Monitoring - Launch Reporting - Measure Improvements OUTCOME Operational Improvements	LAYER	CURRENT MATURITY	TARGET MATURITY	GAP	SEVERITY	PRIORITY		GOVERNANCE MATURITY IMPROVEMENT	Current 3.36	→	Target 4.50
			5 Oversight	4.0	4.5	0.5		Moderate		GAP REDUCTION	Current 1.14	→	Target 0.30
			4 Accountability	3.2	4.5	1.3		High		RUNTIME GOVERNANCE CAPABILITY	Current 2.0	→	Target 4.5
			3 Control	3.5	4.5	1.0		Moderate		EVIDENCE COVERAGE IMPROVEMENT	Current 76%	→	Target 98%
			2 Runtime Governance	2.0	4.5	2.5		Critical					
			1 Evidence	4.1	4.5	0.4		Low					
			OVERALL MATURITY	3.36	4.50	1.14		Significant					

EXECUTIVE REPORTING OUTPUTS				
 TRANSFORMATION DASHBOARD Real-time visibility into roadmap progress, KPIs, and key milestones.	 MATURITY IMPROVEMENT REPORT Tracks maturity growth across all governance layers over time.	 GAP CLOSURE REPORT Monitors gap reduction, remediation status, and risk reduction impact.	 EXECUTIVE GOVERNANCE SUMMARY Board-level reporting on governance strength, risk, and performance.	 STRATEGIC ROADMAP VIEW Long-term view of governance capability building and milestones.
